**NEWS RELEASE**  
**NOT FOR DISSEMINATION IN THE UNITED STATES**

**ALASKA HYDRO RETAINS LEGAL COUNCIL FOLLOWING PERMIT DENIAL**

February 10, 2012 – Vancouver, British Columbia – Alaska Hydro Corporation (the “Company”) announces that its subsidiary company Cascade Creek LLC (“Cascade”) is requesting a rehearing of the US Federal Energy Regulatory Commission’s (“FERC”) order denying Cascade’s Preliminary Permit Application. Cascade believes that the denial is based on incomplete information with respect to the progress being made in permitting and the lack of awareness of the impact additional demands have had with respect to fulfilling the application requirements. The company intends to put forward its strongest case and expects to be supported by stakeholders.

To aid the Company in its request for a rehearing, the company has engaged the firm of Paul B. Mohler PLC of Arlington Virginia. Paul Mohler has extensive experience with FERC and is very well qualified to act as Cascade Legal Representative.

The company has 30 days to request a rehearing with the last day being February 29, 2012. The company believes the efforts expended to date and the importance of the energy supply to Alaska warrants a quick and positive response.

**About Alaska Hydro Corporation**

The Company is engaged in the acquisition and development of renewable energy projects, focused primarily on hydropower projects in northern climates. The Company owns Cascade Creek, LLC which has been developing the Cascade Creek project located in Thomas Bay near Petersburg, Alaska. The Cascade Creek project is a 70 MW lake syphon hydropower project, the largest private hydropower project being developed in Alaska. The Cascade Creek project would bring additional energy and capacity to the Southeast Alaskan region, with opportunity to export and import excess energy and capacity to and from the Pacific Northwest and Southwest States through a proposed transmission interconnection in British Columbia. Further information regarding the business of the Company and Cascade can be found in the Company’s filing statement which is available at [www.sedar.com](http://www.sedar.com). Interested persons may visit the project’s website at [www.alaskahydro.com](http://www.alaskahydro.com) to view project details and licensing documents. All project documents may be viewed on the Cascade website [www.thomasbayhydro.com](http://www.thomasbayhydro.com) at this time, or on the FERC website [www.ferc.gov](http://www.ferc.gov).

*Certain statements contained in this release constitute forward-looking information. These statements relate to future events or future performance. The use of any of the words “could”, “intend”, “expect”, “believe”, “will”, “projected”, “estimated” and similar expressions and statements relating to matters that are not historical facts are intended to identify forward-looking information and are based on the Company’s current belief or assumptions as to the outcome and timing of such future events. Actual future results may differ materially. In particular, this release contains forward-looking information relating to the business of the Company and the Cascade Creek Project. The forward-looking information contained in this release is made as of the date hereof and the Company is not obligated to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable securities laws. Because of the risks, uncertainties and assumptions contained herein, investors should not place undue reliance on forward-looking information. The foregoing statements expressly qualify any forward-looking information contained herein.*
